We process data based on the following frameworks:

**6.1 Performance of Contract:** To provide, maintain, and support the Service (hosting, payments, technical support). **6.2 Legitimate Business Interests:** For system integrity, fraud prevention, and **Research and Development (R&D)** (utilizing de-identified data to train models and develop new features). **6.3 Compliance and Compelled Disclosure:** To comply with laws (e.g., responding to subpoenas in Canada/US), protect assets, or during corporate transactions. **6.4 Consent:** We may seek explicit consent for specific activities like optional marketing.
